

Alex Henderson Bio and Topics

Alex has been joyfully married to his wife, Rachel, for almost 9 years and they've just welcomed their fourth child in late March. He is first and foremost a family man but by trade a data analyst at the University of Michigan.

He and Rachel have been keeping the Sabbath, Feasts and food laws their entire lives but, since late 2015, have been delving deeper into Torah and embracing all of it and its relevance for believers today. He has a deep passion for uncovering the real Yeshua and the "trinity" of God, Israel, and Torah.

As a student of the Bible, Alex is continually learning and grappling with long held biblical truths while striving to walk like his Savior and King. He is forever humbled by the fact that his loving Creator has reached down and touched his life in such dramatic ways!

Alex will be sharing his studies on Torah Relevance Today in 2 sessions.
